

07.3-1333 Determining fuel consumption by driving on the road

Operation no. of operation texts and work units or standard texts
and flat rates
07-1333.

- 1 Fill up fuel tank with vehicle standing on level ground and in the presence of the customer.
- 2 Distance covered approx. 100 km, of which approx. 40 km motorway, approx. 60 km main roads and in towns.
- 3 After the run, fill up the fuel tank again and calculate fuel consumption.

Example:

Fuel consumption in liters/100 km

$$\begin{array}{l} \text{Quantity of fuel consumed} \\ \text{in liters} \\ = \frac{\text{-----}}{\text{km covered}} \times 100 \end{array}$$
